39th INTERNATIONAL CONGRESS ON HEATING, REFRIGERATING AND AIR CONDITIONING

CONFERENCE OF IIR COMMISSIONS B1, B2, E1, E2

3rd – 5th December 2008, Belgrade, Serbia

THE FIRST ANNOUNCEMENT AND INVITATION
FOR THE CENTENNIAL CELEBRATION OF THE
INTERNATIONAL INSTITUTE OF REFRIGERATION

The 39th congress on heating, refrigerating and air conditioning will take place in the Congress Centre "Sava", Belgrade, in the period 3rd – 5th December 2008. This event will be devoted to the centenary of the International Institute of Refrigeration, founded, among others, by the Kingdom of Serbia in the years of 1908 and 1909.

This will be the final celebration of the series of meetings which will be organized during 2008, celebrating the existence and significant activity of this intergovernmental institution.

The main sponsors of this event will be the International Institute of Refrigeration as well as ASHRAE and REHVA, traditional sponsors of the congresses organized in Belgrade every year. Their final confirmation is expected.

Concurrently with the congress, the exhibition of HVAC&R equipment will be organized in the same building. Interested companies and individuals can obtain information regarding the exhibition by phone (381 11) 32 30 041 or on website www.kgh-kongres.org.

The congress will take place in the year when we celebrate 140 years from the foundation of the first engineering organization in Serbia.

Owing to the establishment of the Institute as an intergovernmental organization, the Serbian Commission for Refrigeration was also established and, in the same year, academic courses in refrigeration, heating and ventilation were organized at university.

THE CONGRESS TOPICS

The topics of this event will be those covered by the activity of IIR commissions B1 (Thermodynamics and Transfer Processes in HVAC&R), B2 (Refrigeration Equipment and Systems), E1 (Air-conditioning), E2 (Heat Pumps and Energy Recovery) as well as energy supply and energy sources, especially renewable energy sources, direction and control of energy consumption for heating, refrigerating and air-conditioning in buildings, sustainable development, global warming and environment protection.

TERMS OF PARTICIPATION

Interested participants who wish to submit their papers should send their summaries by e-mail to the organizer or to the Chairman of the Organizing Committee **by 1st June**.

Confirmation of accepted papers will be mailed to authors by **1st July**, and complete papers should be mailed by **5th September**.

Official languages will be English and Serbian, and presentations will be simultaneously translated into both languages.

Papers of domestic authors should be mailed in both languages.

The registration fee for participants is EUR 250, for authors presenting papers EUR 200, and for members of the Serbian Society of Heating Refrigerating and Air-Conditioning is EUR 100.

The registration fee includes the welcome cocktail, sandwiches during the noon breaks, banquet
